

**Updating seminar for therapists in audio-psycho-phonology
Verona (I), 19 – 20 – 21 March 2021**

Tomatis Method

Seven main topics

- Interpretation of the listening test from the following point of view: linguistic, psychological, musical and psychomotor
- How to program a cycle of sessions with Electronic Ear according to the needs of the client and his listening test
- Working with school problems
- Electronic Ear and foreign languages. How to use it
- The Tomatis method for singers, musicians and speakers
- Programs and devices to help motricity problems and psychomotor disorders
- The Tomatis method after Alfred Tomatis and state of the art 2021

During the seminar it will be possible to speak, sing and play your music instrument with your own listening changing according to acoustic parameters of different languages and see what really happens (German, Italian, French, etc. way to speak, sing and play an instrument).

Also, different acoustic parameters on the Electronic Ear are useful to help acoustic and motoric aspect of speaking, singing and instrument playing.
We can use Italian, German, Russian, Hebrew, French and other languages' parameters to help: musicality, singing and playing in tune, arm weight and pressure in playing string instruments, increased speed in violin fingering and more...

The seminar is open to all audio-psycho-phonology therapists.

A limited number of places are available for musicians or therapists interested in seeing what actually happens with the Tomatis method.

The seminar will be held online in English by Concetto Campo, pupil of Alfred Tomatis,

on Friday 19th – Saturday 20th – Sunday 21st March 2021.

Times will be agreed with students.

The course costs:

€ 310,00 if I pay by 26th of February 2021

€ 330,00 if I pay after 10th of March 2021

Participants may enrol by depositing the amount into the following bank account, registered to Concetto Campo
